**AMENDMENT AND COMMUNICATION RE: RESPONSE TO ELECTION/RESTRICTION REQUIREMENT**

Attn: **AMENDMENT**  
Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

This Amendment is being filed in response to the Office Action mailed on May 22, 2001.

**REMARKS CONCERNING THE OFFICE ACTION**

In the Office Action mailed on May 22, 2001, the U.S. PTO required Restriction and Election of Ultimate Species to be exercised between claims 1-47, all of the claims in the Application. Although the claims were not associated into specific groups (as is conventional in restriction practice), five separate categories of species were identified as follows:

Species I is directed to "a data processor operating system;"

Species II is directed towards "a system for security, validation, and verification of a game data;"

Species III is directed to "a system for resumption of a game after loss of power;"

Species IV is directed to a networked gaming system;" and

Species V is directed to "a gaming system with a progressive jackpot.

In this response, Applicants will identify the claims falling within each identified species, elect a species for examination, identify the claims directed towards that species, and provide an independent generic claim covering that species and identify an existing independent generic claim covering all species.

**ELECTION OF INVENTION AND ULTIMATE SPECIES**

Solely for the purpose of responding to the Office Action mailed on May 22, 2001 that requires Applicants to elect an ultimate species, **Applicants hereby elect, with traverse, the**
